

Wall Starter Kit — A2 Stainless Steel Masonry Wall Tie System

Brick & Block Construction | Up to 2.4m Wall Height | Complete Kit with All Fixings

Direct Channel Wall Starter Kits provide a safe and reliable method of tying a new masonry wall to an existing structure. Designed for brick and block wall construction, the system creates a strong structural connection while allowing controlled vertical movement to reduce the risk of cracking or separation at the joint.

Manufactured from A2 stainless steel for excellent corrosion resistance, each kit covers walls up to 2.4 metres in height using two overlapping 1.2m connectors. Suitable for internal and external applications including house extensions, new build connections, and structural masonry projects.

SPECIFICATION	
Product Type	Wall Starter Kit
Product Code	WSK (single) / WSK.Q12 (pack of 12)
Material	A2 Stainless Steel
Wall Coverage	Up to 2.4m (8ft) height
Connector Length	1.2m (2 connectors per pack)
Pack Contents	2× connectors, 5× plugs/screws/washers, 10× ties
Sold As	WSK: 1 pack WSK.Q12: 12 packs
Applications	Brick & block wall construction
Standard	Manufactured to relevant building regulations

KEY FEATURES

- A2 stainless steel — excellent corrosion resistance for long service life
- Covers walls up to 2.4m (8ft) — two 1.2m overlapping connectors
- Secure connection between new and existing masonry walls
- Accommodates controlled vertical movement — reduces risk of cracking
- Suitable for brick and block construction — internal and external
- Complete kit — connectors, coach screws, plugs, washers, and ties supplied
- Quick and straightforward installation with all fixings included
- Available as single pack (WSK) or 12-pack trade box (WSK.Q12)

PRODUCT RANGE

SKU / Product Code	Pack Quantity	Material	Description
WSK	1 pack	A2 Stainless Steel	Wall Starter Kit — 2.4m system, 2× 1.2m connectors, 5× fixings, 10× ties
WSK.Q12	12 packs	A2 Stainless Steel	Wall Starter Kit — 12-pack trade box, same contents per pack

PACK CONTENTS (per single pack)

Component	Qty per Pack	Material / Notes
Wall connectors (stainless steel rail)	2	1.2m each — overlap to cover up to 2.4m wall height
Coach screws with plugs and washers	5 sets	For fixing the connector rails to the existing structure
Wall connector ties (stainless steel)	10	Bed into mortar courses of the new wall

WSK.Q12 is supplied as a trade box of 12 individual packs — each pack contains the full kit listed above.

TYPICAL APPLICATIONS

House extensions and new wall connections to existing structures
Brick and block masonry wall construction
Residential, commercial, and industrial building projects

Both internal and external masonry installations
Garden walls, outbuildings, and structural masonry connections
Suitable where corrosion resistance is required (A2 stainless)

Standards & Compliance: Manufactured in line with relevant building regulations for masonry wall connections. Suitability for specific applications should be confirmed by a qualified structural engineer or building professional where required by current building regulations.
