

Pre-Galvanised Channel Closure Strips

1m / 2m / 3m Lengths | Pre-Galvanised Steel | Grey Finish | Individual & Box Options

Direct Channel pre-galvanised channel closure strips provide a clean protective finish to open strut channel faces. Manufactured from pre-galvanised steel with a grey finish, they are intended for standard strut channel systems used in mechanical, electrical and support-framework installations.

The range is available in 1 metre, 2 metre and 3 metre lengths, with the 1 metre version also available as a box of 20. The strip helps cover open channel faces, improve appearance and reduce exposure of internal channel edges and services.

SPECIFICATION

Product Type	Channel closure / cover strip
Material	Pre-galvanised steel
Finish	Pre-Galvanised (PG)
Colour	Grey
Available Lengths	1m, 2m and 3m
Compatibility	Standard strut channel profiles
Supply Options	Individual lengths or 1m box of 20
Primary Function	Covering and protecting open channel faces

KEY FEATURES

• Pre-galvanised steel construction • 1m, 2m and 3m lengths • Covers exposed channel faces • Individual and bulk-box options	• Clean grey finish • Fits standard strut channel profiles • Suitable for M&E support frameworks • Simple clip-in / cover application

AVAILABLE SIZES / PRODUCT RANGE

SKU	Length	Supply	Material / Finish
CCPG.1000	1m	Individual	Pre-Galvanised Steel
CCPG.2000	2m	Individual	Pre-Galvanised Steel
CCPG.3000	3m	Individual	Pre-Galvanised Steel
CCPG.Q20-BOX	1m	Box of 20	Pre-Galvanised Steel

All products are pre-galvanised steel closure strips. The 1m, 2m and 3m versions are sold individually; CCPG.Q20-BOX contains twenty 1m strips.

TYPICAL APPLICATIONS

Strut channel finishing	Mechanical support frameworks
Electrical containment supports	Cable support installations
General M&E installations	Protective channel-face covering
