

Strut Channel End Caps – Plastic

Push-In Channel End Caps | Moulded LDPE | Black & White | 21 mm & 41 mm | Pack of 100

Direct Channel Strut Channel End Caps close off the open ends of strut channel, giving a neat, finished appearance and covering sharp cut edges for improved safety. The ribbed spigot pushes into the channel end and its serrated barbs grip inside for a secure, tool-free fit, while the flanged face sits flush against the channel end.

Moulded from tough, flexible LDPE (low-density polyethylene) for reliable impact resistance and a clean, safe finish. LDPE is lightweight, non-marking and resistant to moisture and many chemicals. Available for 21 mm and 41 mm channel in black or white; the 41 mm cap is a P1-type for heavy-duty 2.5 mm channel. Sold in packs of 100.

SPECIFICATION

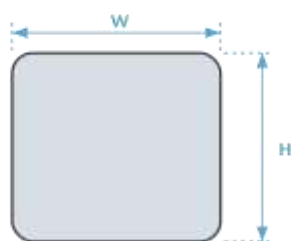

Product Type	Strut channel end cap (push-in plug)
Material	Moulded LDPE (low-density polyethylene)
Colours	Black or white
Fit	Suits 41×21 mm, 41×41 mm & 21 mm light channel
Fixing	Push-in ribbed spigot with retaining barbs — tool-free; adhesive may be required on some 41 mm channel
Function	Closes channel ends, covers sharp edges, improves finish
Compatibility	Suits Unistrut-type strut channel
Pack	Pack of 100

KEY FEATURES

• Neat, safe finish to open channel ends	• Black or white options
• Covers sharp cut edges	• 21 mm, 41 mm & 21 mm-lite
• Push-in barbs grip inside the channel	• Suits Unistrut-type channel
• Moulded LDPE — tough & flexible	• Packs of 100

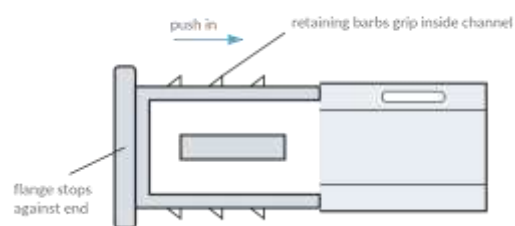

TECHNICAL DRAWING

FRONT VIEW (FACE)

Solid flanged face, rounded corners
(41 × 21 or 41 × 41 to suit the channel)

SECTION (PLUGS IN)

Strut channel end cap — push-in plug with flanged face & retaining barbs, moulded LDPE, not to scale

Strut channel end cap — push-in plug with flanged face & retaining barbs, moulded LDPE, not to scale

AVAILABLE OPTIONS

Fits Channel	Type	Colour	Code
21 mm	Standard	Black	ECB21
21 mm	Standard	White	ECW21
41 mm	P1 type	Black	ECB41
41 mm	P1 type	White	ECW41
21 mm	Light	Black	ECB21-LITE
21 mm	Light	White	ECW21-LITE

Push-in LDPE end caps with a flanged face and serrated retaining barbs that grip inside the channel, sold in packs of 100. The 41 mm caps are P1-type to suit heavy-duty 2.5 mm channel and are not intended for light-duty 41 mm channel; adhesive may be required in some applications (not supplied). The 21 mm-lite caps suit light-gauge 21 mm channel. Black and white available across the range.

TYPICAL APPLICATIONS

Finishing strut channel ends	Covering sharp cut edges
Improving installation appearance	Health & safety on exposed ends
Electrical & HVAC frameworks	General strut assemblies
